

Church Services – Temporary Changes

After much consideration and prayer and the recommendations of health officials and input from other members and church leaders, the Elders have made the following changes in conducting the services at this time.

The elders have decided that they will be conducting the Sunday morning service with Jeremy at 10:30, and they are asking all members to stay home and stream on the YouTube channel. If you need help figuring out how to stream, contact Will Parker, John Painter, or Jeremy for assistance.

Members are encouraged to join us in worship live at 10:30 (or any time after) by going to <http://youtube.com> and searching for "Ellijay Church of Christ" or clicking the following link.

<http://youtube.com/channel/UCmgSTL2rq2LyOcFfsTbGnNQ/live>

Sunday morning Bible class (9:30 AM), Wednesday evening Bible study (7:00 PM), and Sunday evening worship (6:00 PM) are being temporarily suspended.

Praying for our church family, our community and our nation.

The church office will remain open and the news line updated daily.

Be devoted to one another in love. Honor one another above yourselves.
Romans 12:10

In Christian Love,
the Elders

CDC Recommendations

1. Stay home when you are sick, except to get medical care.
2. Cover your coughs and sneezes with a tissue, then throw the tissue in the trash.

3. Wash your hands often with soap and water for at least 20 seconds, especially after going to the bathroom; before eating; and after blowing your nose, coughing, or sneezing. If soap and water are not available, use hand sanitizer that contains at least 60% alcohol.
4. Avoid touching your eyes, nose, and mouth with unwashed hands.
5. Clean frequently touched surfaces and objects daily.
6. Refrain from shaking hands

Early information out of China, where COVID-19 first started, shows that some people are at higher risk of getting very sick from this illness. This includes:

- Older adults
- People who have serious chronic medical conditions like:
 - Heart disease
 - Diabetes
 - Lung disease
